I. 2546

CITY OF BOSTON.

AN ACT OF THE LEGISLATURE,

AUTHORIZING THE ESTABLISHMENT OF THE CITY HOSPITAL.

SECTION 1. The City of Boston is hereby authorized to erect, establish, and maintain a Hospital for the reception of persons who by misfortune or poverty may require relief during temporary sickness.

SECT. 2. The City Council of said city shall have power to make such ordinances, rules, and regulations as they may deem expedient for the appointment of trustees and all other necessary officers, agents, and servants, for managing the said Hospital.

SECT. 3. Said Hospital shall not be erected or located within three hundred feet of any schoolhouse or church now built.

SECT. 4. This act shall take effect from and after its passage.

[Acts of 1858, ch. 113.]

AN ORDINANCE

RELATING TO THE CITY HOSPITAL.

Be it ordained by the Board of Aldermen and Common Council of the City of Boston, in City Council assembled, as follows:—

SECTION 1. In the month of January, 1863, the City Council shall proceed to elect by concurrent vote eight suitable persons to be a Board of Trustees of the City Hospital, of whom three shall be chosen from the citizens at large, two shall be members of the Board of Aldermen, and three members of the Common Council. The persons elected at large shall hold their offices one for one year, one for two years, and the third for three years, and the members chosen from the City Council for one year, from the first day of said January, and until others are chosen respectively in their places. And after the first election annually in the month of January, or as soon thereafter as may be, there shall be elected in the same manner to be Trustees of said City Hospital, two members of the Board of Aldermen and three members of the Common Council, to hold their offices for one year, and one citizen at large, to hold his office for three years, and until others are chosen respectively in their places. But each of said Trustees shall at all times be subject to removal from office by the City Council for cause. Whenever any vacancy shall occur in said Board of Trustees by death, resignation, or otherwise, such vacancy shall be reported by the said Board to the City Council, and they shall proceed to fill the same by the choice of another Trustee, in the manner aforesaid, who shall hold his office for the residue of the

term for which such member so deceased, resigned, or removed would have held the same. The said Board of Trustees, constituted as aforesaid after each annual election, shall choose a President and a Secretary from their own number, and a majority shall constitute a quorum for business.

SECT. 2. The said Board of Trustees may appoint such consulting and visiting physicians and surgeons as they shall deem expedient; and they may also appoint such subordinate agents, assistants, and domestics as they may consider necessary, and may remove the same, and shall fix the compensation to be paid to each, *provided*, that the City Council, whenever they see cause, may remove any of the persons so appointed. They shall prepare all needful rules and regulations for the government and management of said Hospital, and submit the same to the City Council for adoption.

SECT. 3. The said Board of Trustees shall elect, annually, in the month of February, and whenever a vacancy may occur, some suitable person as Superintendent of the said Hospital, who shall constantly reside at the Institution. He shall be removable at their pleasure, and shall receive such compensation as the City Council may from time to time determine.

SECT. 4. The Superintendent, under the direction of the Board of Trustees, shall have the control of all departments of the Hospital, of all subordinate officers, attendants, and domestics, of the patients, and the charge of the grounds, buildings, and appurtenances.

SECT. 5. The said Trustees shall also have charge of any building which is or may be established within the city limits, by the City Council, for the admission of patients having the smallpox or any other infectious disease. And they shall make such rules and regulations for its management and government as they shall deem proper and necessary, subject, however, to the approval of the City Council. And the said Trustees shall carefully guard against the introduction of any cases of infec-

tious disease into any other building under their charge than the one appropriated for the purpose by the City Council.

SECT. 6. The said Board may make all necessary repairs and alterations in the several buildings under their charge, and improvements in the land and grounds connected with the Institution, *provided* that the expense thereof shall not exceed the amount previously appropriated therefor by the City Council. But they shall not make any change in the occupancy of said buildings, without first obtaining the approval of the City Council.

SECT. 7. The City Hospital is established for the reception of those only who require temporary relief during sickness. The Trustees may, however, admit other persons to the Institution, temporarily, when necessity requires; but such persons shall be removed to other appropriate public institutions, as soon as their condition will permit. They may, when compensation therefor is made, afford separate apartments and more accommodations than those which are customary. Such extra compensation shall be credited to the appropriation for the Hospital.

SECT. 8. Annually, in the month of January, the said Board shall submit to the City Auditor an estimate, in detail, of the expenses of maintaining and conducting the Hospital under their charge, for the year next ensuing; and the said Board shall expend no greater sum than shall be appropriated or authorized by the City Council. And the said estimate shall be accompanied by a report from the Superintendent upon such matters as they may direct, in reference to the general state of the Institution, the number of its inmates, the number of admissions thereto, discharges therefrom, deaths and births therein, during the year, and such other information pertaining to the said Institution as they shall judge to be of public interest.

SECT. 9. All moneys which have been or shall hereafter be received, directly or indirectly, by gift or bequest, for the benefit of the City Hospital, shall, unless conditions are connected with

the gift or bequest inconsistent therewith, be received by the Board of Trustees of the said Hospital, and be by them deposited in the city treasury; and city scrip shall be issued therefor, bearing interest at the rate of six per centum per annum, payable semi-annually, which said scrip shall be deposited with the Auditor, who shall receive the interest as the same shall become due thereon, and add it to the moneys which shall have been appropriated for the use of the Hospital. And all real estate and other property not converted into money by sale, and all evidences of title thereto, shall be received by the said Board; and all such real estate and other property shall be leased, let, or otherwise improved by the said Board of Trustees, and the rent and income thereof added in like manner to the moneys appropriated as aforesaid to the use of the Hospital. All evidences of title thereto shall be deposited with the Auditor.

SECT. 10. All moneys, property, and estate, given or bequeathed to the city, for the use of the Hospital, unless the donors thereof shall have otherwise directed, shall constitute a permanent fund, the principal of which shall not be diminished, and the income of which shall be devoted to the uses of the Hospital.

SECT. 11. It shall be the duty of the Board of Trustees of the City Hospital to exercise a careful supervision of all property, funds, and estate given or bequeathed for the use of the Hospital, so as to prevent any loss or diminution of the value thereof; and in the expenditure of the interest and income thereof, they shall in all cases in which conditions or directions have been attached to the gift or bequest, strictly observe and conform to such conditions or directions.

[Ordinance passed December 23, 1862, amended June 24, 1863, and further amended April 5, 1864.]

RULES AND REGULATIONS OF THE HOSPITAL.

The Board of Trustees, under the Statutes, Ordinances, and these Rules and Regulations, shall have the charge, management, and custody of the Hospital, as well as the control and direction of its employés and inmates.

A meeting of the Board shall be held at least once in each month at the Hospital, and records of their proceedings shall be kept, which shall always be open to the inspection of the City Council.

Annually, as soon after the organization of the Board as shall be convenient, there shall be chosen by ballot three consulting physicians, three consulting surgeons, six visiting physicians, six visiting surgeons, one ophthalmic surgeon, four house officers, an apothecary, librarian, matron, and such other officers as they may think necessary, whose term of service shall expire in one year from the first Monday of the following April, or as soon after as their successors shall be chosen. A Superintendent shall be elected annually in the month of February, and whenever a vacancy may occur.

They may remove any officer so chosen at their pleasure; and shall fill vacancies, from whatever cause, for the residue of the term.

They shall appoint and discharge all subordinate officers, attendants, and domestics, and shall fix the compensation of all persons employed, excepting that of the Superintendent.

Annually in the month of January, the Board shall make a report of their proceedings to the City Council, and shall furnish statistics of the Hospital, embodying in such blanks as may be adopted details concerning the operations of the year. They shall also furnish a statement of the various items of expense,

with estimates of the amount of appropriations necessary for the coming year.

The Board of Trustees shall keep 'a book containing an account of all donations and bequests to the Hospital, and shall manage such property in accordance with sections 9, 10, and 11 of the City Ordinance relating to that subject.

The Trustees shall be authorized to establish from time to time such minor rules for the government of persons on the premises, for the regulation of the internal police of the wards, and other parts of the Hospital, the appointment of hours, and the arrangement of diet tables, as may to them seem expedient.

They shall designate each ward in the Hospital by a letter, or by the name of some benefactor, and shall number the beds in order.

SUPERINTENDENT.

The Superintendent, under the direction of the Board of Trustees, shall have the general control of all departments of the Hospital; of all subordinate officers, attendants, and domestics; of the patients, and the charge of the grounds, buildings, and appurtenances.

He shall see that there is no waste or carelessness in any department, and shall report to the Trustees omissions of duty, or disorderly conduct on the part of employés.

He shall, under the direction of the Trustees, purchase the provisions, stores, and fuel, shall have the charge thereof, and shall be responsible for their proper and economical use. He shall make monthly returns of the consumption of fuel and gas.

He shall keep regular accounts of all moneys received and disbursed by him, on behalf of the Hospital, in books provided by the Trustees, with a record of all contracts, and shall submit the same to the Board at their monthly meetings.

He shall, when required, collect all sums due to the Hospital, and shall take charge of money or other property not in use belonging to patients, and keep a record of the same.

He shall keep an inventory of all furniture, and other property belonging to the Hospital, and shall make a quarterly report of articles injured, destroyed, or missing.

He shall provide the diet of patients, as may be directed by the physicians and surgeons, and for the persons employed shall furnish such provisions as the Trustees may direct.

He shall examine all articles purchased as to their quality, quantity, and price.

He shall make no purchase exceeding one hundred dollars, or of an unusual nature, without the sanction of the Trustees or of the Committee on Supplies.

All bills, together with the pay-rolls, shall be submitted to the Board on the third Tuesday of each month.

He shall daily visit and inspect the wards, kitchen, laundry, engine room, and all other departments of the Institution.

It shall be his duty to ascertain the settlement or residence of patients, and when belonging to other places than Boston, to correspond with the authorities of such places, and make the necessary arrangements for the reimbursement of expenses incurred. He shall have charge of the correspondence of patients, and shall communicate to their friends information of their condition or decease. He shall see that autopsies are decently made, but shall allow no such autopsy, if objected to by the immediate relatives of the deceased. He shall cause the bodies of the deceased to be delivered to their friends, or, if not claimed by them, to the proper authorities.

He shall keep, for the inspection of the Trustees, a record of the names of all patients, with their age, residence, employment, date of admission, discharge, elopement, or death, and result of treatment.

He shall assign a bed to each patient on admission, subject to the approval of the physician or surgeon in attendance.

PHYSICIANS AND SURGEONS.

As soon after their election as possible, the Physicians and Surgeons shall be notified by the Trustees to meet for the purpose of arranging their term and order of service, which arrangement shall be made subject to the approval of the Trustees.

They shall weekly, or oftener, report the names of such patients as they think should be discharged, and shall make any suggestions or remarks which may tend to promote the interests of the Hospital or its inmates.

They shall keep or shall cause to be kept by the resident graduates in permanent volumes, in such form as may be provided by the Trustees, full records of the cases and treatment of all patients in both medical and surgical departments. No volume of such records shall be taken from the premises, and no extracts shall be made from them by persons not connected with the Hospital.

If any Physician or Surgeon shall be prevented from attending in his term, he shall procure one of the other Physicians or Surgeons to attend in his stead. The regular morning visit to patients shall be made between the hours of eight and eleven.

Except in case of emergency, no capital or important operation shall be performed without a previous consultation, of which all the Surgeons shall have due notice.

STUDENTS.

Students and other persons shall be admitted to the wards and the amphitheatre of the Hospital, in such numbers and with such restrictions as the Trustees may from time to time deem expedient.

HOUSE OFFICERS.

The House Officers shall be chosen on the nomination of the Board of Visiting Physicians and Surgeons, whose duty

it shall be to report such nomination to the Trustees on or before the first day of April in each year. The names thus reported shall be those of the four persons who, in the opinion of the said Board, after a rigid examination in the various branches of medicine and surgery, shall seem most competent to fulfil the duties required of them.

Two of the House Officers shall reside constantly at the Hospital, and shall not absent themselves without the consent of the Superintendent, and in no case shall both be absent from their post at the same time. The year shall be divided among them as shall be agreed upon by themselves, subject to the approval of the Trustees.

Their duties shall be assigned them by the visiting physicians and surgeons, who shall, in the case of absence of either of them by sickness or other cause, appoint a temporary substitute, subject to the approval of the Visiting Committee.

If more than four House Officers be required, the Trustees may appoint the same and permit them to reside on the premises or elsewhere.

They shall in no case make an exchange of their respective departments without the consent of the visiting physician or surgeon under whom they serve, and the sanction of the Visiting Committee.

They shall accompany their superiors in their daily visits, shall make the necessary record of treatment and diet of patients, and shall see that their directions are complied with. They shall, when requested by the physician or surgeon, make autopsies and other pathological examinations; and the House Officer in the Surgical Department shall take charge of the instruments and apparatus, none of which shall be taken from the Hospital without the consent of the Superintendent.

The House Officers shall not engage in private practice during their term of service.

They shall, when requested by the Superintendent or Visiting

Committee, investigate the claims of applicants for admission, whether made at the Hospital or from the city.

They shall attend to patients on their admission, and give the necessary directions for their comfort, before they are seen by their regular medical attendant, and shall make a daily evening visit to each patient.

LIBRARIAN.

The Librarian shall have the charge of all books belonging to the Hospital, and of the casts, models, anatomical preparations, and prints, under such regulations as may be prescribed by the Trustees.

APOTHECARY.

The Apothecary shall reside on the premises, and shall not absent himself except at such hours as may be authorized by the Superintendent. He shall purchase medicines under the direction of the Committee on the Medical Department, and shall keep exact accounts of quantities, qualities, and prices. He shall compound medicines, prepare prescriptions, perform chemical analyses, and such other duties as may be prescribed by the Trustees or the Superintendent.

DISPENSARY.

The Trustees may establish a dispensary department for outdoor patients who are unable to pay fees for medical attendance at their houses, with such restrictions and under such regulations as they may from time to time deem expedient.

MATRON.

The Matron shall have the general direction of the female nurses and servants, see that they perform their several duties, and report all instances of inattention and neglect of duty. She

shall be responsible for the neatness and order of every part of the establishment; shall superintend the kitchen and laundry, and cause to be kept an accurate account of bedding, clothing, table, and other furniture. She shall perform such other duties as may be required.

NURSES.

The Chief Nurse of each ward, under the direction of the Matron, shall have charge of the same, with the convalescents room attached thereto. She shall keep a ward book containing a list of patients, and an inventory of furniture, bedding, and other articles, and on each Tuesday shall make a return to the matron of all occupants of the ward during the week. She shall keep, in a suitable book, a list of all parcels or property belonging to patients in her ward not in use, which property shall be deposited in a suitable room, under the charge of the Superintendent. She shall also keep a list of all articles sent to the laundry, and if not returned in good condition report the same to the matron. She shall perform such other duties as may be required.

GATE KEEPER.

The Gate Keeper shall allow no one to enter or leave the premises, unless duly authorized.

He shall examine all permits, and, when so instructed, record the names of persons passing the gate, and shall perform such other duties as may be required of him.

ADMISSIONS AND DISCHARGES.

Applications for admission of patients shall be made at the Hospital on each day of the week, at such hours as the Trustees may appoint.

Whenever able, the patient shall apply in person. When not able to appear in person, application may be made by a

friend, and the patient shall be visited by one of the House Officers, or by some Physician designated by the Trustees.

Any Trustee or either of the Physicians or Surgeons in attendance may, in case of emergency, send a patient in the first instance to the Hospital by written permit, and the Visiting Committee shall, on the certificate of one of the medical officers designated for the purpose, decide as soon as may be afterwards whether such patient shall remain.

Persons accidentally wounded or otherwise disabled or injured, shall be received at all hours, subject to such rules as the Trustees may from time to time enact.

Permits for admission shall be subject to the approval of the Visiting Committee for the time being, or, in their absence, to that of the Superintendent.

The Visiting Committee, however, shall have the power at any time to require the Superintendent to report to them the names of applicants before admitting them, and may dismiss any patient whom they think improperly admitted.

Patients discharged on the recommendation of the Physicians or Surgeons, shall be provided with a certificate stating their condition at the time of discharge, whether cured, relieved or not relieved, which certificate shall be signed by the Superintendent.

In case of the decease of any patient, the Superintendent shall sign a certificate to that effect, and shall furnish the City Registrar with a copy of the same. He shall also state the time and cause of death, the disposition made of the body, whether delivered to friends or buried from the Hospital. In the last case he shall mention the place of interment.

Patients may be admitted by the Trustees to the privileges of the Hospital, at such rates of board as they may from time to time determine; such board being secured by their friends, or by the authorities of the place to which they belong.

In all cases where in the opinion of the Trustees the circumstances of the patient will warrant it, the whole or a part of the

board shall be paid. If separate apartments or articles not usually furnished at the Hospital are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

DISBURSEMENTS.

On or before the twentieth day of each month, the Superintendent shall submit to the Trustees the order and bill book, and all bills approved by any of the Committees, with a schedule of the same, and also the pay-roll for salaries and wages, containing the names of the persons entitled to payment, with the amounts due to them respectively; and if approved by the Board, said schedule shall be signed by the President, and with the pay-roll and bills shall be sent, on or before the twentieth day of each month, to the Auditor of Accounts for payment by the Treasurer.

HOUSE RULES.

PATIENTS must be in their proper places in the wards during the visit of the Physicians and Surgeons, and always by 9, P. M., unless specially exempted by the Superintendent.

Those free patients who are able, are expected to assist in nursing, and in such other services as may be reasonably required of them.

Patients shall not leave the Hospital Grounds without a pass from the Superintendent, nor their respective wards without the consent of the nurse in attendance.

No patient shall purchase, or cause any member of the household to purchase for him, any article of food whatsoever, nor any other article, without the consent of the Superintendent. Nor shall any officer or servant of the Hospital receive a gift or fee from a patient.

Profane or obscene language, loud talking, and ineivility, are prohibited.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms which in the opinion of the Physician or Surgeon are capable of being relieved.

No patient having acute syphilitic disease, or *mania-a-potu*, shall be admitted as a charity patient, or at a lower rate than twenty-five dollars a week for the former, and fifteen dollars for the latter.

Patients may be visited by clergymen of their own selection, and where there is a wish for the performance of any particular religious rite, it shall be indulged when practicable.

It is expected that patients will implicitly obey the rules of the Hospital. Complaints, for whatever cause, may be made to the Superintendent or Visiting Committee, and when reasonable shall be by them reported to the Trustees.

All employés must be in their respective places during their hours of duty. The doors and gates of the Hospital will be closed at 9 $\frac{3}{4}$ P. M., at which time all are expected to be quiet, and those not on duty, in their own rooms.

The smoking of tobacco is prohibited within the Hospital, also the use of wine and intoxicating liquors unless prescribed by a physician.

The Matron, House Officers, and Apothecary shall take their meals with the Superintendent; all other employés in the dining-room provided for them.

VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or of some one of the Trustees.

On Monday, Tuesday, Thursday, and Friday of each week, from two to three o'clock, P. M., friends may be permitted to visit patients, though no patient shall receive more than one visitor on the same day. In all cases, however, the Trustees or Superintendent may exercise discretionary powers as to excluding or admitting visitors.

No visitor will be permitted to take any meal in the Hospital, or pass the night therein, without permission from the Superintendent.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to the patients shall be left with the Superintendent.

NURSES.

Nurses are required to be in their several wards each morning ready for duty, before the night watchers leave the same.

Nurses are to decide what clothing or other articles patients are to retain in the ward.

STUDENTS.

The Trustees may grant any practitioner or student of medicine of one year's standing, on the joint recommendation of the Physician and Surgeon in attendance, a ticket of admission to follow the practice of the Hospital for not more than one year. Before receiving this ticket, the applicant shall sign an obligation to obey in all respects the By-laws and Regulations of the Hospital. The privilege thus granted may be modified or revoked.

No student shall be entitled to admission except at the regular hours for visiting, operation, or lecture.

Every student when requested shall show his ticket to the porter at the gate, and shall conduct himself with decorum and propriety. It shall be the duty of the Superintendent to report any infringement of the rules to the Visiting Committee.

FORM OF APPLICATION.

The form of application for admission shall be as follows : —

BOSTON CITY HOSPITAL.

The undersigned, inhabitant of _____ for the last
and now residing at _____ Born in _____ being
_____ years of age, by employment a _____ married and ill of
requests to be admitted to the City Hospital.
Boston, _____, 186

CERTIFICATE OF ADMITTING PHYSICIAN.

Having examined the condition of the said applicant, I find it a suitable case for admission to the City Hospital.

_____, M. D.

TO BE SIGNED BY SUPERINTENDENT.

Said	is discharged,	186

_____, *Superintendent.*

RULES AND ORDERS OF THE TRUSTEES.

Stated meetings of the Trustees shall be held at the Hospital each Tuesday, at four o'clock, P. M., unless otherwise ordered, and special meetings shall be called by the President at the request of two of the Trustees.

At their first meeting after the annual election of Trustees by the City Council, they shall elect a President and Secretary from their own number, and a majority of the Board shall constitute a quorum.

They shall be governed in their action as a Board by the following rules and orders : —

The President shall preside at all meetings of the Board when present, and in his absence the Board shall elect a President *pro tem*.

Motions shall be made in writing when requested by the President or a majority of those present.

On all questions and motions whatsoever, the sense of the Board shall be taken by yeas and nays, if any member requires it.

Questions of order shall be decided by the presiding officer, subject to appeal to the Board.

When a vote has passed it shall be in order for any member to move a reconsideration thereof at the same or the succeeding meeting.

The order of business shall be as follows : —

1. Reading of the records.
2. Reports of Committees.
3. Examinations of admissions and discharges, purchases and expenditures, and books of the superintendent.

4. Approval of bills.
5. Choice of officers and employés.
6. Unfinished business.
7. Motions and resolutions.

There shall be appointed by the President, after the first organization of the Board, the following standing committees, to consist of two members each : —

1. On Rules and Regulations.
2. On supplies and furniture.
3. On finance and auditing accounts.
4. On Medical and Pathological departments.
5. On service.
6. On grounds and buildings, heating and ventilation.
7. On Library.
8. On Smallpox Hospital.

The Trustees shall be arranged in visiting committees of two members, one going out and one added each month, to advise with the physicians and superintendent, determine matters of minor administration, and see that all duties are properly performed. They shall record their names, with the date of each visit, in a book kept for the purpose, with such remarks as they may deem advisable.

Committees shall be appointed by the President.

All bills contracted for the Hospital shall be approved by the Board of Trustees.

Reports of committees shall be in writing.

These Rules may be suspended by a vote of five members of the Board of Trustees.

Any alteration or amendment of these Rules may be made by a vote of three fourths of the members of the Board, notice of the same having been given one week before action on the same.

REPORT OF THE TRUSTEES.

CITY HOSPITAL, BOSTON, January 1, 1866.

TO THE CITY COUNCIL:—

The Trustees of the City Hospital, in accordance with your Ordinance, respectfully present their report for the year ending December 31, 1865, it being their Second Annual Report.

The number of persons admitted monthly to the Hospital has, since its dedication, steadily increased, and upon the completion of the buildings, now being erected, a still further increase may be expected.

For the year ending December 31, 1865, the business has been as follows:—

Patients in Hospital January 1, 1865	101
Admitted	1,066
Discharged	953
Died	97
Remaining	117
Surgical	499
Medical	459
Ophthalmic	102
Smallpox	6
Medical and Surgical Out-patients	461
Ophthalmic Out-patients	682

By order of the City Council, dated May 16, 1865, the Smallpox Building was removed to the grounds assigned to this Hospital, on the easterly side of Albany Street, and placed in charge of the Trustees.

By order of the City Council, dated June 7, 1865, this Board was authorized to erect, upon another portion of these grounds, a stable and autopsy room; and also a building for the storage of coal, and to inclose the whole with a substantial fence.

In addition to the foregoing, the Trustees were empowered to erect a pavilion, for the treatment of contagious and infectious diseases. This building is located near the southeast corner of the grounds originally appropriated for the use of the Hospital. The style of architecture is somewhat different from the other pavilions, the Trustees having adopted that which best subserved the purposes of the building.

The dimensions of this pavilion are as follows: 101 feet 5 inches in length, and 46 feet 5 inches in width, two stories in height, with a basement to be used for storage, and a ventilating chamber 10 feet wide, extending the whole length of the building. The first story is divided into twelve rooms, six on each side, 14 by 15 feet in size, and 14 feet high. Ten of these rooms are designed each to accommodate two patients, one as a room for the nurse, and one for a kitchen.

The second story is divided into twelve rooms, 14 by 15 feet in size, and 18 feet high, with arched ceilings; ten of these rooms are for patients, one for the nurse, and one for a bathing room. A hall, or passageway, 10 feet wide, in each story, extends the whole length, with a staircase at each end; water closets are provided in each story. The building is so arranged that each room is surrounded by brick walls, directly upon which is a coating of hard-finished plaster. The pavilion is heated by steam from the boilers connected with the main Hospital, and the pipes and coils are so arranged that the rooms can be separately heated. The ventilation is original in its arrangement; the middle walls are a succession of flues, twelve inches square, three of which in each room are for ventilation, with an opening in each, two of which are near the ceiling and one near the floor. Another flue serves to convey fresh air direct from the

fan, and is regulated by a valve. The ventilating flues connect with the chamber which contains a coil of steam pipe, to assist in the ventilation when needed. The rooms are each furnished with a wash-basin and cold water. The building is connected with the main Hospital by a covered corridor entering the passageway to the centre building near the Engine House.

The coal shed has been built in a most substantial manner, and is capable of holding one thousand tons of coal. It is located near the edge of the wharf; coal is received at one end directly from the vessel, and from the other end it is taken, as needed, into the Engine House in a car upon rails laid for the purpose.

The driveways have been handsomely graded, and about 300 trees and shrubs have been planted, which, in after years, will add very much to the beauty of the grounds, and contribute to the comfort and enjoyment of the inmates.

The amount appropriated for the erection and furnishing of these buildings and the improvement of the grounds was \$ 59,000. The Trustees are confident that the aggregate cost will come within the appropriation, and that the buildings, when finished, will be satisfactory to the City Council, and add much to the usefulness, convenience, and economy of the institution.

The use of the Dead House on North Grove Street was discontinued by order of the City Council dated October 10, 1865, and a room on the northerly side of the Engine House on Albany Street has been appropriated for this purpose. When occupied by a coroner's jury it is inconvenient, and at some future day it may be advisable to erect a suitable building upon the land east of Albany Street.

The Medical and Surgical departments have been efficiently administered; the tabular statements which will be found in the report of the Superintendent, are evidence of the constant attendance of the Physicians and Surgeons, and of the successful treatment of the patients under their charge.

The beneficial results of the Ophthalmic department under the care of Dr. Williams have been very gratifying. In addition

to the patients admitted to the Hospital, nearly seven hundred persons have been treated for the various diseases of the eye as out-patients, many of whom, were it not for the timely aid rendered them, would soon become blind or their sight so much impaired as to make them dependent upon the public, or their friends for support.

The calls of this class of persons during the year at the rooms appropriated to this department which are in the basement of the south pavilion, number in all over six thousand.

The medical gentlemen connected with the Hospital were early impressed with the importance of giving aid to medical students, so far as was consistent with their other duties, and during the last winter and spring, very instructive and interesting lectures were given by members of the Board, upon subjects connected with their several departments. During the present year one of our Board of Surgeons has been appointed a Professor in the Harvard Medical School, and early in November, he commenced at the Hospital a regular course of lectures to the students upon Clinical Surgery. The attendance has been very satisfactory, oftentimes quite large. The appointment of Dr. Buckingham has given great satisfaction, and the Trustees are ready to give their aid in all matters which will tend to increase or disseminate knowledge in either department of medical science, and they see no good reason why the united and harmonious action of the medical gentlemen connected with the two Hospitals should not build up a School of Medicine in the city of Boston, second to none in the United States.

Sunday services have been continued as during the past year. Clergymen of all denominations have kindly officiated, and the patients and employés have been much gratified and benefited thereby.

About three hundred and fifty volumes have been added to the Library during the present year; the most important contribution was 173 volumes from the Trustees of the Public Library. Books and pamphlets are eagerly inquired for by those

patients who are convalescing. In addition to the instruction they afford, they serve to divert the mind from pain and suffering, and alleviate the tediousness and monotony of protracted confinement in the wards. Useful and entertaining books and periodicals, suitable for children, as well as adults are solicited from the public. A list of the contributors to the Library the present year, will be found in the Report of the Superintendent.

An elaborate and appropriate Tablet in memory of the late Dr. John C. Dalton, who was a member of our first Board of Physicians and Surgeons, has been placed in the wall of the Trustees room, by the direction of his friend and classmate, the late William P. Greene, of Norwich, Conn.

Forty-two of the wounded and disabled soldiers of the Union have been received and carefully treated during the past year.

The estimate for the current expenses for the financial year 1865-6, was \$ 65,000, and the income was estimated at \$3,000. The salary of the Superintendent, the amount of which is fixed by the City Council, was not included in the above estimate, the Trustees presuming that it was included in the appropriation for salaries. The number of paying patients has been considerably larger than was anticipated, thereby increasing our expenditure. The additional income derived therefrom appears to the credit of the Hospital account, but cannot be used by the Trustees.

These items, although not increasing the cost to the city, serve to reduce our available balance in the hands of the Treasurer, and will render it necessary to ask for a small additional appropriation to meet the expenses of the present financial year.

The estimate for the expenses of the coming year are somewhat in excess of the last, in consequence of the greater number of patients, as well as the increased cost of supplies and labor, and of the additional means required for the support of the New Pavilion and the Smallpox Hospital. The estimate for the next financial year is as follows : —

Supplies	\$ 40,000 00
Salaries [and labor, including Superintendent's salary	15,500 00
Fuel	10,000 00
Smallpox Hospital	2,000 00
Furniture	1,500 00
Repairs and ground	3,000 00
Medical Supplies	3,000 00
	<u>\$ 75,000 00</u>

Estimated amount to be received from paying patients \$ 6,000.

The Trustees desire to express their appreciation of the continued devotion of the Board of Physicians and Surgeons to the usefulness as well as the advancement of the reputation and interest of the Hospital.

The duties of the Superintendent during the past year have been unusually arduous. In addition to the management of the Institution, which, being comparatively new, needed more than ordinary attention, he has planned and superintended the erection of all the new buildings, introducing many valuable improvements in ventilation and heating, and for their more convenient and economical management. The city is fortunate in having an officer in charge of this Institution of such practical ability, and we are much indebted to him, as well as to Mrs. Cutler, the Matron, for their unwearied and humane devotion to the patients, and the general interests of the Institution.

NOTE.

Total cost of buildings, exclusive of land and furniture, up to the time of their delivery into the hands of the Trustees, May 24, 1864, \$349,960.14.

Appropriation for New Pavilion, Coal-shed, Fence, Stable, and Autopsy-room, 1865, \$54,000.

Land originally appropriated to the Hospital, 292,633 square feet.

Land east of Albany Street, appropriated 1865, 69,318 square feet.

REPORT OF THE SUPERINTENDENT.

CITY HOSPITAL, BOSTON, December 31, 1865.

TO THE BOARD OF TRUSTEES : —

GENTLEMEN: In conformity to the Rules and Regulations of the Hospital, the undersigned presents his second Annual Report.

The year just closed has been one of great interest to the friends of the Hospital.

It has been demonstrated that the wants of this community required the addition of this Institution to the hospital accommodations in this city. The buildings now being erected will add much to the convenience and usefulness of the Hospital, and will enable us to receive a large class of patients, which are now wholly unprovided for.

Herewith I present a statement of the current expenses, with statistical tables showing the transactions at the Hospital during the past year.

FIXTURES AND FURNITURE.

The amount given in my last Report, bearing date December 31, 1864, included all the fixtures and furniture to that date,	\$ 36,069 70
There has been expended, during the past year, for iron bedsteads, beds and bedding, clothing for patients, &c.,	6,463 64
For fixtures and improvements,	3,381 44
Total cost of furniture and fixtures, to Jan. 1, 1866,	<u>\$45,914 78</u>

Statement of Current Expenses from January 1, 1865, to January 1, 1866.

Fresh Beef,	\$ 3,854 74	Amount brought	
Salt Beef,	362 36	up,	\$ 28,166 51
Mutton,	922 46	Surgical Instruments,	443 88
Lamb,	314 04	Books, Printing, and	
Veal,	412 70	Stationery,	1,949 63
Poultry,	759 69	Fuel,	12,737 65
Lard,	92 05	Gas,	1,278 06
Pork,	371 81	Water and Ice,	542 00
Liver,	12 50	Expense of Horses, &c.	574 00
Butter and Cheese,	2,858 27	Hospital Grounds,	3,171 21
Eggs,	702 06	Incidental Expenses,	320 56
Vegetables,	1,538 03	Compresses and Ban-

hand Jan. 1, 1865,

2,950 00

\$ 76,634 12

Amount brought up,	\$76,634 12
Deduct —	
Furniture purchased during the year, and now on hand,	\$ 6,463 64.
Amount expended for fixtures and improvements,	3,381 44
Supplies, fuel, and medicine on hand Jan. 1, 1866,	6,826 81
Cash received from Pay- patients, from Jan. 1, 1865, to Jan. 1, 1866,	5,685 66
	\$ 22,357 55

Net cost of maintaining the Hospital, from Jan. 1, 1865, to Jan. 1, 1866,	\$ 54,276 57
--	--------------

The Smallpox Hospital was placed in charge of the Trustees during this year. A small quantity of furniture, consisting principally of beds and bedding, of little value, were contained in the building. A horse, wagon and harness, used for the transportation of smallpox patients, were at the same time transferred to the Trustees.

STATISTICAL STATEMENT.

Applicants for admittance visited by the Admitting Physician	1,081

P. S. — Many of the results not given as successful, were in cases where an unfavorable prognosis was given before operation; and the operation done only as a last resort.

The operation as such, was, in nearly all cases, quite successful, although of no decided benefit to the patient.

NOTE.—A large proportion of those marked *not relieved* were untreated; either because they were not suitable cases for, or because they refused to submit to treatment.

For DISEASES OF EYE, Order 9, (Class 3,) see Report of Eye Department.

NOTE.—The two deaths not accounted for in the tables, died in the Smallpox Department.

TABLE OF OPERATIONS.

Operations.	Males.	Females.	Total.	Results.
Amputation of Arm.....	5	1	6	One, primary, died of delirium tremens One, secondary, died of pyaemia. Two, primary, recovered, disch'd well. Two secondary " " "
“ Shoulder-joint		1	1	One primary, with many fractures, died.
“ Fore-arm	4		4	Three primary, recov'd, disch'd well. One secondary, recovered, with ne- crosis, discharged.
“ Fingers.....	9		9	Nine recovered, discharged well.
“ Thigh	3	1	4	Two pathological amputations, recov- ered and discharged well. One pathological amputation, died. One secondary " " "
“ “ and Leg	1		1	Double amputation, traumatic, died.
“ Leg.....	6		6	One primary, remaining in hospital. One secondary, recov'd, disch'd well. One secondary, relieved, discharged. One secondary, phthisis, discharged. Two secondary, died.
“ Lisfranc	3		3	One secondary, recov'd, disch'd well. Two “ subsequently ampu- tated, and discharged well.
“ Chopart.....	1		1	One primary, subsequently amputated, and discharged well.
“ Toes	5	1	6	One primary, recovered, disch'd well. One secondary, “ “ “ One primary remains in Hospital. One “ subsequently amputated, discharged well.
“ Breast		4	4	Four for scirrhus. Two discharged well; one died; one relieved, dis- charged.
Anchylosis of shoulder and elbow	2		2	Two false anchyloses relieved by fore- ible extension, and discharged.
Artery Brachial, ligature of	1		1	One for secondary hemorrhage; re- covered, discharged well.
“ Carotid “	1	1	2	One primary, died with cancer; one secondary, died of cut throat; both had paralysis after ligature.
“ Lingual “	2		2	One primary, died with cancer; one primary, for lacerated wound of tongue; recovered, disch'd well.
			52	

TABLE OF OPERATIONS. — *Continued.*

Operations.	Males.	Females.	Total.	Results.
Bullet removed.....	1		1	Recovered, and discharged well.
Carbuncle	2		2	Two discharged well.
Dislocation of shoulder-joint	2		2	Discharged well.
Dislocation elbow.....	1		1	Discharged well.
Dislocation Hip.....	1		1	Discharged well.
Excision ulna	1		1	Primary (Traumatic), four inches removed, carpal end and recovered, with use of fore-arm; disch'd well.
Fistula in ano	5		5	Recovered, and discharged well.
“ “ urethra.....	1		1	Remaining in Hospital.
Harelip plastic operation.		1	1	Discharged well.
Hæmorrhoids	1	4	5	Four relieved and discharged, one remaining in Hospital.
Hydrocele, radical cure by injections	4		4	Three discharged well, one discharged not relieved.
Hydrocele, radical cure by seton in scrotum.....	1		1	Discharged not relieved.
Hernia, Femoral, radical cure by Wood's method		1	1	Remains in Hospital.
Hernia, Inguinal, radical cure by Wood's method	6		6	Three discharged well, one in Hospital, one discharged relieved, one discharged unsuccessful.
Hernia, Inguinal, strangulated	1	1	2	One male strangulated eighteen hours by twist in omentum, discharged well; one female strangulated six days, died.
Hernia, Crural, strangulated		1	1	One female strangulated seven days, (cathartics) died.
Minor operations	30	10	40	Discharged relieved.
Necrosis, for removal....	14	2	16	Discharged relieved.
Ovariectomy		2	2	One, duration one year, ten tappings, died in 28 hours; one, complicated, with uterine tumor,—died in 17 hrs.
			93	

TABLE OF OPERATIONS. — *Concluded.*

Operations.	Males.	Females.	Total.	Results.
Paracentesis abdominis...		3	3	Three discharged relieved.
Perineal section	4	..	4	One for rupture urethra, disch'd well; one for stricture and extravasation, discharged well; one for stricture and fistula, discharged relieved; one for stricture, remaining in Hospital.
Prolapsus ani.....	1	2	3	Two disch'd relieved; one, duration many yrs., age 60, died pneumonia.
Puncture of bladder.....	2	..	2	Two discharged relieved.
Resection of knee.....	2	1	3	Three for disease of knee, one disch'd well, one subsequently amputated and discharged well, one in Hospital.
Rhinoplasty	1	..	1	One for deformity, disch'd relieved.
Stricture of urethra.....	..	..	1	By Holt's method, disch'd well.
Trephining skull.....		1	1	For fracture, with depression,—died. Autopsy, fracture base of skull.
Tumors Epithelial lip	3	..	3	Three discharged well.
“ “ abdomen		1	1	Discharged well.
“ Encysted		1	1	Discharged well.
“ Encephaloid		1	1	In Hospital.
“ Fatty.....	2	1	3	Three discharged well.
“ Glandular	2	..	2	One leucocythaemia, discharged well, one enlarged glands, disch'd well.
“ of parotid.....		2	2	Discharged well.
“ Thyroid		1	1	Duration thirteen months, size of pullet's egg, discharged well.
“ Enchondromatous	1	..	1	In Hospital.
Testicle removed.....	1	..	1	Died of peritonitis.
Tracheotomy.....	2		2	Two for membranous croup; one died, one recovered, discharged well.
Vesico vaginal fistula		2	2	One discharged well, one discharged not relieved.
Varix, ligature of.....	2	..	2	Two discharged relieved.

	98

In reviewing the transactions of the past year, I am gratified that our labors have alleviated the sufferings of so many of the poor and deserving of our city.

The rules of the Hospital very properly prohibit the admittance of *chronic* diseases, otherwise our wards would soon be filled. It would be an excellent charity if an institution could be established to provide for the deserving and needy of this class.

The applications for admission have increased, and a much larger proportion than formerly are acute cases.

The visits of our Admitting Physician during the year number 1,081; of the number visited, 696 were admitted.

Accidents are received without reference to the Admitting

Physician, and of this class 242 cases have occurred during the year.

102 patients have been admitted for ophthalmic treatment.

26 patients admitted by the Superintendent, make the total admissions for the year 1,066.

The number of out-patients for Surgical and Ophthalmic treatment has been 1,143, and the total number of calls from these patients amounted to 8,164.

Ninety-seven patients have died during the past year, some of whom were brought to the Hospital in a dying condition.

Total number of admissions to the Hospital since its dedication, 1,541.

Before closing my Report, I desire to express my indebtedness to the Board of Physicians and Surgeons, for their uniform kindness and readiness to promote the interests of the Hospital. I am happy to say that my relations with them have at all times been most agreeable.

The House Physicians and Surgeons deserve great credit for their close application, and their uniform kindness in the discharge of their various duties.

The Library now contains 618 volumes. The contributions the present year have been from the Public Library; Third Company of State Guards, South Boston; Messrs. Tewksbury & Bro.; Dr. J. B. Upham; Thomas C. Amory, Esq.; Dr. W. R. Lawrence; S. M. Colcord, Esq.; and others.

The religious exercises upon the Sabbath have been conducted by Clergymen of this city of various denominations. These services are intended for the employés of the institution and for such of the patients as are able and willing to attend. The attendance has been good, and much interest manifested.

In conclusion, I may be allowed to express a fervent desire that, under the Divine blessing, the City Hospital may be eminently prosperous.

Respectfully submitted,

LUCIUS A. CUTLER,

Superintendent.

B E Q U E S T S .

Elisha Goodnow of Boston, by will dated July 12, 1849, makes the city of Boston residuary legatee to his estate, real and personal, for the benefit of a City Hospital. *Provided*, That one half of the proceeds shall be applied to the establishment and perpetual maintenance of *free beds* under the control of the government and officers of the said Hospital for the time being.

The following sums of money have been received : —

1862, June 9.	From executor's balance of account at Probate Office	\$ 623 85	
1864, April 14.	Proceeds of sale of estate on Cross Street, containing 6,228 square feet land	\$ 14,907 12	
	Old buildings upon same	223 00	
1864, December 31.	From city of Boston for 225 square feet of land taken from above estate to widen Cross Street	523 36	15,653 48
1864, July 1.	Interest on same from city to this date	222 67	
			\$ 16,500 00

1864, July 1. In accordance with the City Ordinance es-

tablishing the Hospital, the above amount, say \$ 16,500, has been invested in city scrip, dated July 1, 1864, twenty years ; interest semi-annually, at six per cent per annum, and deposited with the City Auditor, who is required to receive the interest upon the said scrip, and add the same to the moneys appropriated for the use of the Hospital.

1865, January. A lot of land being a part of the bequest of Mr. Goodnow, situated upon Third Street, South Boston, has not as yet been converted into money. The lot originally contained 7,700 square feet. The New York Central Railroad located their track upon a portion of this land, taking a strip 5 feet 8 inches wide, by 100 feet long, containing 6,683 square feet. *No settlement has yet been made with the railroad corporation for damages.*

1865, January. A strip of land on the westerly side of the above, measuring 15 feet, 2 inches, by 100 feet, is yet in possession of the city, and *should be sold as soon as convenient.*

1865, January. The \$ 10,000 deposited by the Executors of Mr. Goodnow, June 22, 1852, with the Massachusetts Hospital Life Insurance Company, the interest upon which is to be paid to the widow, will, upon her decease, be distributed as follows :—

\$ 500 to the Farm School.

\$ 5,000 to city of Boston, income to be expended for the relief of sick and infirm persons.

\$ 4,500 to be added to the fund heretofore provided for the support of free beds in the City Hospital.*

Lawrence Nichols of Boston, by will dated August 19, 1862, and recorded Suffolk Registry of Wills, volume 160, folio 140, bequeathed to the city of Boston towards the support of a City Hospital, the sum of one thousand dollars.

* Plans, copy of the will, and other papers, are on file with the Secretary of the Board of Trustees.

1863, April 29. The Executor of Mr. Nichols paid the City	
Treasurer \$ 1,000, less the United States tax	\$ 937 25
The city of Boston paid interest on same	. 62 75
	\$ 1,000 00

1864, July 1. The above amount, say \$ 1,000, has been invested in city of Boston scrip, dated July 1, 1864, twenty years, with six per cent interest, payable semi-annually, and deposited with the City Auditor as required by Ordinance.

1865, March 14. Received as Residuary Legatee, from the estate of Mr. Nichols, and now in the hands of the Treasurer \$ 530 50
